Developing the Young Workforce

SDS: My World of Work

KHS SCHOOL CAREERS ADVISERS: Suzie Brown & Julie Pollock

There are lots of resources to help make informed choices about your subjects

My world of work
https://www.myworldofwork.co.uk/secondary-school-pupils
- focus on the subject choices section for S2

Other things to consider…..

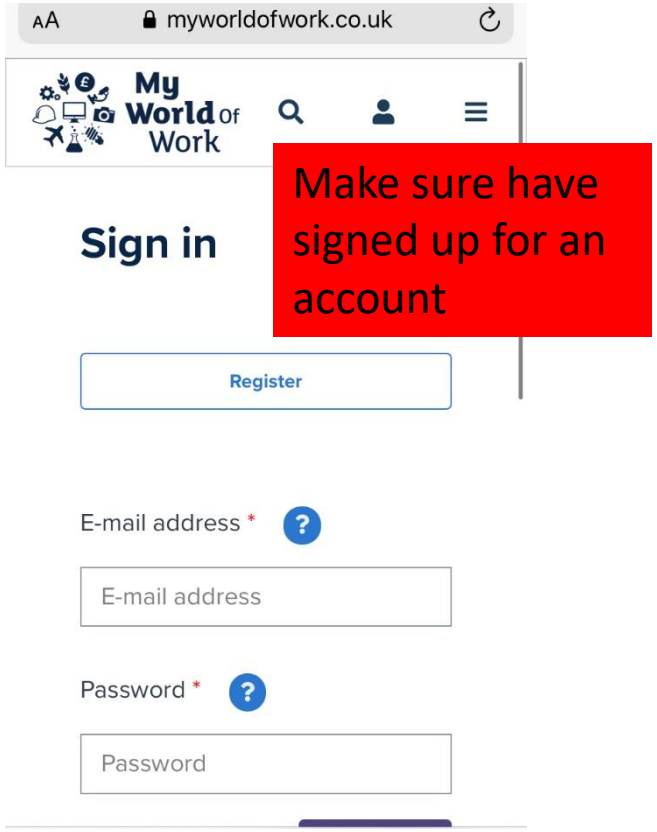

- ✓ **Speaking to people who work in the area you are interested in**
- ✓ **Seeking feedback from older students**
- ✓ **Ensure you discuss your options with your family – they will be keen to support you!**

KHS SCHOOL CAREERS ADVISERS: Suzie Brown & Julie Pollock

There are lots of resources to help make informed choices about your subjects (posted in your year group teams and shared in PSE)

Think about the skills you will gain from each subject and also the opportunities it may provide for your future

There are lots of resources to help make informed choices about your subjects

We will regularly share opportunities of courses, videos, online supports and other exciting activities you can take part in to find out about future careers, aspirations and skills needed for the world of work.

We have a new member of staff who has recently joined us. They will use this year group team to keep in touch with you all

"Stacey is excited to help bridge the gap between school and industry. She is very passionate about helping young people reach their potential regardless of the path they take and watching them grow into successful careers. Her own experience with different walks of life gives her an insight into the barriers there can be and she is enthusiastic about finding ways to overcome them. Stacey has good interpersonal skills with over 10 year's experience within the Bank of Scotland and looks forward to engaging with businesses and industries to forge new partnerships ensuring the best options are available for all young people."
