

MULTIPLY

Multiply is a new UK Government funded programme to help transform the lives of adults across the UK by improving their numeracy skills.

We will be offering a range of free adult numeracy programmes which aim to:

- increase peoples' confidence in using numbers
- support parents wanting to increase numeracy skills
- upskill those wanting to progress into employment or further education
- develop every day numeracy skills, e.g. in managing money or cooking
- provide progression towards gaining a formal maths qualification

Multiply programme could be for you if you (any of the following):

- live in the Scottish Borders and are aged 19 years old or older
- want to brush up and develop your numeracy skills to help with everyday life
- have not already achieved a maths qualification at SCQF Level 5
- are in or out of work but can't progress any further because you need to build your skills or qualifications
