Pathways: Course Choices

WHAT

S3 into S4

- 7 subjects are required in most cases
- English, Maths, core PE and PSE remain compulsory
- +5 subjects from our course offer, of a young person's choice
- Courses offered from Levels 2-5 to meet learners' needs

S4 into S5

- Number of subjects can vary
- **30 periods of timetabled classes per week** are required
- Higher/L6 courses are primarily 6 periods per week (PPW)
- National 3/4/5 and Level 3/4/5 courses are 4 PPW.

Subject Choice Checklist – Key Considerations

Action Points	Completed
Read the school Options Guide carefully.	
Make sure I understand the Subject Options Form and know how to fill it in.	
Find out who I can ask for help if, or when, I need it.	
Find out what each subject or course involves.	
Talk about my option choices with my parents or carers.	
Think about what I really like, and what interests me most. (You usually do better at the subjects you really enjoy.)	
Think about how well I am doing in my subjects now. What am I really good at?	
Find out if I will need any specific subjects to get into the career, or career area, I am interested in. What are they?	
Check if I have left my future career options as open as possible.	
Check that I am choosing my subjects for the right reasons. (Wanting to stay in the same class as your friends, or liking the teacher doesn't count.)	
Check that I've not ruled a subject (or career) out just because people might think it's a 'boys' or 'girls' subject.	
Think about the skills I am good at and the skills I need to develop in the future. Which courses or other opportunities will help me develop these?

Your child is currently in **S4** and has said they want to become a **doctor**.
Which of the following is the **most appropriate plan** from S4 onwards?

A. Focus mainly on any subjects they enjoy as universities do not require specific sciences for medicine.

B. Ensure strong … **both by S5**, gain relevant healthcare exper… 6.

C. Leave science subjects after S4 and concentrate on English and social subjects, as communication skills are most important.

D. Apply directly to medical school after S4 if grades are high enough.

Answer: A - many unis also require Advanced Highers in both sciences in S6 and completion of the 'MCAT' test.

Your child is currently in **S4** and is interested in becoming a **welder**. Which of the following pathways is the **most appropriate plan** from S4 onwards?

A. Focu sed.

B. Leave

C. Choo cal
subjec
qualifica

D. Wait

Answer: C

Welding is a skilled trade that combines practical ability, safety awareness, and technical knowledge. The most effective pathway includes:

S4–S5: Achieving **National 5s**, particularly in **Maths**, and subjects such as **Practical Craft Skills, Engineering Science, or Design & Manufacture**.

Post-school options: Progressing to **college** (e.g. a welding or fabrication course) or starting a **Modern Apprenticeship** in welding or fabrication and welding.

Pathways: Can you Find the Right Path?

Answer: C

S4–S5: Completing an **NPA in Childcare/Early Education** helps develop key skills such as communication, teamwork, and understanding child development. – New for 2026-2027 at KHS (Level 5) or BCSA. (Level 6)

Progression routes: NPAs can lead directly to **college courses**, **foundation or modern apprenticeships**, or supported employment.

Recognition: NPAs are **valued by employers** and often include **work placement**, helping young people gain confidence and experience.

Flexibility: This pathway allows learners to progress without relying solely on traditional exam-based qualifications. Options A, B, and D are incorrect because they overlook the value of NPAs as recognised, structured pathways into employment and further training.

We capture the pathway planning information on a web programme called TOOLS.

Parent/Carer will receive an automated e-mail which will confirm the selections a pupil has made.

A letter will be sent just before the start of the pathway planning conversations start, which will outline more details on the date / time of the 1:1 meeting that is held within the Library.

Please ensure your youngster has their choice of course sheet completed, signed and brought to the 1:1 meeting
